Reasons for Allowance

Applicants' response to the last Office Action, filed April 18th, 2005 has been entered and made of record.

The following is an examiner's statement of reasons for allowance:

Independent claims 1, 12, 23, 34-36 are allowable over the prior art of record. Claims 2-5 and 8-11, 13-16 and 19-22, 24-27 and 30-33 depend from claims 1, 12, and 23 respectively, therefore, are allowed.

Independent claims 1, 12, 23, 34-36 recite the limitations of : a field lens arranged such that an optical axis of the field lens coincides with a normal to the opening at which the test chart is placed; and a focus lens arranged at the focal point of the field lens. The combination of these features as cited in the claims in combination with the other limitations of the claims, are neither disclosed nor suggested by the prior art of record.

The closest references of Yasuo (JP 11-258712) and Nishima (JP 10-11500A) disclose a lens system for color correction. However, they do not teach the limitations of cited above.

In view of the amended claims and the Applicant's arguments , the rejections and objections to claims 1-5, 8-16, 19-27, 30-36 are expressly withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
